

Please do not change the wisconsin 'Do Not Call List'. We have had sales calls 24 hours a day, 7 days a week. We had to turn our phones off just to eat or sleep. We could not call family or friends-either our line was buisy, or thiers. I missed saying goodbye to my mother when she died, @12:00 AM, because the phone was off. We kept a running count on sales calls-on a good day, 25 to 30. On a bad day, 200 +. The do not call list works fine! You should make it nation wide! Let everyone else enjoy life again. They still have print medea, radio and TV to sell to us.
